

IN THE SPECIFICATION

Please replace the paragraph beginning at line 20 on page 11 with the following new paragraph:

Process block ~~175~~ 176 searches the voice application index of the present invention based upon the criteria specified by the user. The search results are presented to the user at process block 178. The user selects at process block 180 one or more of the search results to be included in the user's own telephony server application. Processing terminates at end block 182.
